

BASE STUDIO ENVIRONMENTAL POLICY

In order to protect the environment and ensure the sustainability, reducing the environmental impacts and to leaving a livable world to the next generations, within the scope of the current regulations, Base Studio is committed to work with the logic of “ Minimum waste Optimum Production” in any kind of products and the production activities. We will manage and direct our processes, materials we use, our internal / external contexts and our parties in this direction.

Here is our principles;

- To provide development and improvement by meeting customer requirements and current legislation as a result of Determination of Environmental Dimensions, Life Cycle Analysis, Assessment of Risks and Opportunities,
- To developing our environmental management system in direction of improving our environmental performances in our all activities,
- To reduce the amount of hazardous and non-hazardous waste,
- To increase the use of energy,
- To have the waste recycled and disposed through the intermediary companies,
- To reduce the risks of pollution that may adversely effect the environment and to prevent the possible pollution from spreading ,within the framework of the Occupational Health and Safety rules,

In line with our objectives, we are committed to work as a pioneer in our industry by managing intedratedly with our other management systems.
