HEALTH & SAFETY POLICY

We are dedicated to carry out all activities in safe and healthy environment.

Here are our principles,

- To create health and safety culture and make it primary concern of the organization,
- To regularly conduct risk evaluations and improve to reach the top level in safety conditions,
- To use the most appropriate and safest equipments for a healthy and safe work environment,
- To identify and apply the essential measures in order to prevent the accidents and illnesses,
- To organize events and tutorials for the employees and suppliers in order to inform about the health and safety applications updates,

In line with our objectives and principles, we are committed to work as a pioneer in our industry
