

BASE STUDIO QUALITY POLICY

As a driveline systems manufacturer aiming to become a leading company, we are comitted to work integratedly with various management systems all over the company.

Here are our principles;

- To be always focused on the costumer's reliance and special requests in sense of quality
- To assure the sustainability and the management of change by considering the risks and opportunities according to the expectations of the stakeholders
- To develop the new technologies based on our R&D activities.
- To develop innovative and creative approaches by using the technology.
- To assure our future with the great power of team-work and our know-how.
- To organize courses to develop technical and behavioural assets.
- To be aligned with the International Standarts and legal obligations.
- To aspire the continous improvement as a team.
- To specify our corporate ethics in our firm and keep their sustainability.
- To assure to reach our goals in a team-spirit as a whole company and all organizational units of it.
